

## RoHS / REACH / Dodd Frank Compliance Statement

Date: 01/17/2022

This letter is to confirm that Comet Metals Inc. is compliant with the Restriction of Hazardous Substances (RoHS 3) standards, per Directive 2015/863/EU (RoHS 3). The Directive is understood to include the following maximum limits (by weight in homogenous material) based on Annex II or RoHS 2, and our material does not exceed these maximums, therefore we are in compliance with the Directive. All our materials are absent from this directive as we do not supply ANY item on this list.

This letter also confirms that we are compliant with REACH. Our material does not contain any of the chemicals listed by REACH and does not contain any of the substances of standard or very high concern (SVHC) that are prohibited by the European Union issued Directive.

All our materials do not contain any of the chemicals listed on either of these directives and we do not supply any material listed on these directives. Comet Metals is also Conflict Materials compliant and conforms to the Dodd-Frank Act (section 1502). Our materials are not processed with any of the 3TG metals that are smelted in the Democratic Republic of Congo or Africa.

Sincerely,

Jim Kelley

Vice President

Comet Metals Inc.
